How many UN agencies are trying to take away freedom of speech simultaneously? We've identified 3 so far.

They are racing to the finish line before everyone wakes up! They can't win unless they have total information control.

Inside the UN Plan to Control Speech Online

The UN is escalating its war against 'conspiracy theories' and 'misinformation' by creating an 'internet of trust.'

A powerful United Nations agency has unveiled a plan to regulate social media and online communication while clamping down on what it describes as "false information" and "conspiracy theories," sparking alarm among free-speech advocates and top U.S. lawmakers.

The U.N. Educational, Scientific, and Cultural Organization (UNESCO) outlined a series of "concrete measures which must be implemented by all stakeholders: governments, regulatory authorities, civil society, and the platforms themselves." in a 59-page report released this month.

*The approach includes the imposition of **global policies**, through institutions such as governments and businesses, that seek to stop the spread of various forms of speech while promoting objectives such as "cultural diversity" and "gender equality."*

*In particular, the U.N. agency aims to create an "**Internet of Trust**" through a focus on what it calls "**misinformation**," "**disinformation**," "**hate speech**," and "**conspiracy theories**."*

Examples of expression flagged to be stopped or restricted include concerns about elections, public health measures, and advocacy that could constitute "incitement to discrimination..."

Join us for the first The Alternative View Presents with Gary Fraughen

Gary will be sharing his research and speaking about many subjects including:

Blue shift radiation
Super fluid consciousness with servants
Savants and greed
Numbers in the cracks and crevices of the universe
The universal balance sheet of doing harm to others

This is your opportunity to get up close and personal with Gary. This will be a more intimate event with plenty of opportunity for questions and discussion.

Just this month, the U.S. House Judiciary Committee released a report blasting the “pseudoscience of disinformation.”

Among other concerns, the committee found that this “pseudoscience” has been “weaponized” by what lawmakers refer to as the “Censorship Industrial Complex,” the goal of which is to silence constitutionally protected political speech, mostly by conservatives.

“The pseudoscience of disinformation is now—and has always been—nothing more than a political ruse most frequently targeted at communities and individuals holding views contrary to the prevailing narratives,” states the congressional report, titled, “The Weaponization of ‘Disinformation’ Pseudo-Experts and Bureaucrats.”

Indeed, many of the policies called for by UNESCO have already been implemented by U.S.-based digital platforms, often at the behest of the Biden administration, the latest congressional report makes clear.... go to the link for the rest

And the UN is also trying to end free speech using the same disinformation canard:

Countering Disinformation

The UN General Assembly has expressed concern over the proliferation of disinformation and has welcomed the efforts of the Secretary-General to promote international cooperation in countering disinformation. In response to that, the Secretary-General has submitted a report based on information and best practices shared by States, UN entities and others on countering disinformation.

In his report, Countering disinformation for the promotion and protection of human rights and fundamental freedoms, the Secretary-General describes the challenges posed by disinformation and the responses to it, sets out the relevant international legal framework and discusses measures that States and technology enterprises reported to have taken to counter disinformation.

Countering Disinformation

“Countering disinformation requires lasting investment in building societal resilience and media and information literacy.”

ANTONIO GUTERRES, United Nations Secretary-General

Why is Davos so interested in Disease X? The global biosecurity agenda is critical for them to achieve the New World Order/Great Reset

They strung several very well constructed fairy tales together that, when believed, lead you to walk happily into their ovens and pay for the privilege. It's that simple.

A Big Thank You

A big thank you to those of you who attended the AV13 Conference in Milton Keynes. It was fantastic to finally get back together and welcome old friends and newcomers to a very enjoyable and memorable event. We are already already working on the next AV events.

If you didn't make it to AV13 we now have the presentation recordings available.

Regards and best wishes.

Robert and Jill Malone wrote an excellent substack piece on what has been going on at Davos this week in a collaboration between the WHO and the WEF titled "Disease X" and its evil twin "One Health." The fact that WEF and WHO have become partners to terrify the world in order to get us back on track to allow them to make our decisions for us, extract lots of our money and lead us along the yellow brick road to One World Government should tell you plenty.

Quoting from the Malones' piece (in italics):

*The big push from the WHO and the WEF is that "Disease X" will be zoonotic. That money to surveil every speck of land in the world is the path forward to stopping "Disease X". **What a coincidence that the brand new CIA/intelligence agency designated to run the National Counterproliferation and Biosecurity Center to surveil pathogens intends to do just that. And that this happens to be intended to run in parallel with the CIA mission to surveil the world for other (nefarious?) purposes.***

According to the WHO, Disease X is all about One Health solutions. The World Health organization describes One Health as the following:

Government officials, researchers and workers across sectors at the local, national, regional and global levels should implement joint responses to health threats. This includes developing shared databases and surveillance across different sectors, and identifying new solutions that address the root causes and links between risks and impacts.

Basically One Health gives public health official total control and surveillance across AI, the internet, agriculture, climate change, public health, medical systems, ecological sites, urban and rural areas. It can encompass just about anything. It also values animal and plant life as equal to human life. The WHO goes on:

*investigating **the impact of human activity on the environment and wildlife habitats, and how this drives disease threats.** Critical areas include food production and distribution, urbanization and infrastructure development, international travel and trade, activities that lead to biodiversity loss and climate change, and those that put increased pressure on the natural resource base – all of which can lead to the emergence of zoonotic diseases.*

We have seen this playbook before...

The White House admits we don't know how to prevent pandemics, so we will spend your money **developing new technologies that so far have not worked**, but we are happy to **share your medical records internationally** in our efforts to seek them out:

<https://www.whitehouse.gov/briefing-room/statements-releases/2022/10/18/fact-sheet-biden-harris-administration-releases-strategy-to-strengthen-health-security-and-prepare-for-biothreats/>

"The Administration looks forward to working with Congress to implement this investment strategy to **save trillions of dollars and millions of lives.**

The Strategy sets out to:

Detect pandemics and other biological threats: The Strategy aims to transform early warning of infectious disease threats by **accelerating the development and deployment of new technologies** that can rapidly detect novel pathogens. It will improve real-time information for decision-making by planning for an **enduring all-hazards hospital data collection system**, expanding platforms to integrate and share data for response, and **improving data sharing internationally**. These efforts build on the recently launched **Center for Forecasting and Outbreak Analytics**, which creates the equivalent of a "national weather service" for infectious disease outbreaks, enabling rapid, effective decision-making to improve outbreak response **using data, modeling, and analytics."**

Robert and Jill went on to establish that the **medical journals** that suppressed information on the origin of COVID and effective treatments were part of a financial matrix in which the WEF was centrally located.

Yesterday I interviewed James Howard Kunstler, who told me that basically the world is being run through **racketeering by a criminal mafia** that controls politicians around the world and others of importance. Is that true? I looked it up. Per Wikipedia, "Racketeering is a type of organized crime in which the persons set up a coercive, fraudulent, extortionary, or otherwise illegal coordinated scheme or operation to repeatedly or consistently collect a profit." **I think James used the right terminology. I am going to start using it myself.**

I have explained my analysis for why **the zoonotic theory of origin was absolutely critical for the world takeover scheme that was to succeed it.** In a nutshell, I hope these little pptx I made will make it very clear:

It would help organize world politics around the idea of protecting people from pandemics, controlling the public through fear, yet again.

But in fact it would institutionalize and fund the creation of new lab-born biowarfare agents that could be released to cause future pandemics, as well as a massive new surveillance and control apparatus. **What happened is that Daszak's EcoHealth PREDICT program got internationalized, with every nation now instructed to do what Peter Daszak paid a few to do: go find potential Biowarfare agents and give them to the WHO, which will "share them globally."**

If you share your "potential pandemic pathogens" your country may be able to access financial benefits from doing so.

It is hard to believe, but the WHO says it plainly: rapid access to these biowarfare agents for "interested entities"

What is the WHO BioHub System?

It would institutionalize giving WEF participants a seat at the pandemic prevention table, especially in the drafting of the pandemic treaty, in addition to countries having a seat. Who are these "relevant stakeholders?"

"The COVID-19 pandemic has shone a light on the many flaws in the global system to protect people from pandemics: the most vulnerable people going without vaccines; health workers without needed equipment to perform their life-saving work; and 'me-first' approaches that stymie the global solidarity needed to deal with a global threat," Dr Tedros said.

"But at the same time, we have seen inspiring demonstrations of scientific and political collaboration, from the rapid development of vaccines, to today's commitment by countries to negotiate a global accord that will help to keep future generations safer from the impacts of

It was important to **cover up** the fact that this house of cards (otherwise known as pandemic preparedness) had already proved itself to be a terrible bust. The WHO's hand-picked Independent panel was unable to hide that fact that nations that were designated the **best prepared** for a pandemic had the **highest death rates** during the critical first few months of the pandemic. Here is the panel and their report:

Mauricio Cárdenas

Aya Chebbi

Mark Dybul

Michel Kazatchkine

Joanne Liu

Precious Matsoso

And here is what they were forced to write and the graph they could not suppress. Please expand it so you can appreciate what it shows. It graphs death rates (on a log scale to make death rates in developed countries appear lower relative to those in less developed countries) against how well each country scored on the CDC's favorite measure of pandemic preparedness, termed the Joint External Evaluation or JEE. It shows that the better prepared a nation was (the higher they scored on the JEE) the higher was their death rate. And the correlation was tight and highly reliable.

Joint External Evaluation process

"What all these measures have in common was that **their ranking of countries did not predict the relative performance of countries in the COVID-19 response** (20, 21, 22). The measures failed to account

Figure 1: Death rates in this figure shows the cumulative, reported, age-standardized to COVID-19 deaths per hundred thousand people in the 20 days following the date of the first death in that country.
Source and adapted from Benjamin Craddock et al. 2020, 'Task Group report'

Similarly to how the CDC still pushes us to take the COVID kill shots, the CDC still touts the JEE as a valid measure of pandemic preparedness. Just don't look at the graph. Ignore the man behind the curtain.

That graph alone should tell you that the whole concept of pandemic preparedness, pushed out by WEF, WHO, CDC etc. is yet one more scam designed to rob from us, control us and potentially kill us.

It was a scam to support the other big scam, climate change.

What's shocking is that we all thought this would happen, & here we are. Pandemics, hurricanes, wild fires, economic recessions, all a result of our continued &

And two summing-up slides:

Why did Fauci cover up the COVID lab origin? Because of **critical hidden agendas**

- It shielded him from blame for paying for Wuhan research
- It got his agency lots more money to fight pandemics
- It was critical to support the **Biosecurity Agenda**
- The natural origin story could be spun to support the **climate change** narrative
- It served to justify the **One Health agenda**
- It was used to **blame overpopulation and human activity for pandemics**
- It justified censorship: 'conspiracy theories' interfered with collaboration with China on the pandemic

Very well planned, no?

Why is the Global Bio-Security Agenda so important to the international power elites?

The suggested IHR Amendments and Pandemic Treaty give them the following:

1. A reason for nations to borrow many billions of dollars, spend it on products that profit them, and also earn huge commissions
